

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

TREASURY DEPARTMENT, BOSTON, }
January 19, 1876. }

To the Honorable Senate and House of Representatives.

The undersigned, as required by law, respectfully submits the following as the Annual Report of this department for the year ending December 31, 1875 :—

RECEIPTS.

Balance of cash belonging to the revenue, on hand January 1, 1875, as then reported, .	\$866,043 75	
Receipts on account of the revenue during the year 1875,	7,322,695 37	
Total revenue receipts,	<u>8,188,739 12</u>	
Balance of cash belonging to the funds and loans, January 1, 1875, as then reported, .	\$1,607,812 25	
Receipts on account of the funds and loans during the year 1875,	8,658,408 76	
Total fund and loan receipts,	<u>10,266,221 01</u>	
Total receipts for the year 1875,	<u>\$18,454,960 13</u>	

PAYMENTS.

On account of the revenue,	\$7,227,914 24	
On account of the funds and loans,	5,920,099 18	
Total payments for the year 1875,	<u>13,148,013 42</u>	
Total balance on hand January 1, 1876,	<u>\$5,306,946 71</u>	
Balance belonging to the revenue,	\$960,824 88	
Balance belonging to the funds and loans,	4,346,121 83	
Total as above,	<u>\$5,306,946 71</u>	

The unusually large balance of cash on hand at the close of the year, is owing to several causes. The *revenue* balance, although considerably larger than at the close of the previous year, will all be required to meet the demands upon the treasury during the ensuing five months. It may be observed, that no considerable portion of the revenue of the current year will be received into the treasury till the middle of June next.

The balances belonging to the several loans negotiated on account of the Troy and Greenfield Railroad and Hoosac Tunnel, the new hospitals and the new prisons, are also quite large. It was deemed advisable by all the authorities having charge of the finances, to take advantage of the favorable condition of the money market, and sell the bonds somewhat in anticipation of our wants, rather than to wait until they were actually upon us, with the not improbable contingency of a more stringent market; especially as the Commonwealth was receiving from the banks, on the surplus deposited in them, a rate of interest very nearly equal to the rate paid on the loans. These balances, however, are being very rapidly diminished by payments on account of the various objects for which the loans were granted. The balances belonging to the several sinking funds have been increased to an unusual degree by the premiums on scrip sold, amounting to over half a million dollars, and by reason of the difficulty of investing them in such securities as are prescribed by law. The Treasurer would not, however, be understood as suggesting any change in the law, but would rather recommend a reduction of the rate of interest, so as to command the prescribed securities whenever they are in the market. It will be observed that quite a large amount of the uninvested money—nearly \$675,000—belongs to the Union Loan Sinking Fund. This cannot be invested, unless it could be for four or five months, but must be reserved till the first of July next, when an instalment of the Union Loan, amounting to \$1,424,000, will mature and be payable from this fund.

REVENUE.

Taxable Property of the Commonwealth.

Real and personal estate, as returned by the assessors of cities and towns to the Secretary of the Commonwealth, as of May 1, 1875,	\$1,840,732,706 00

THE SAVINGS BANK TAX was, as usual, promptly paid, as was also the tax for compensation and expenses of railroad commissioners, and, with a single exception, also, the tax for compensation of the inspector of gas-meters.

BANK TAX ACT.

The balance of this tax shown by the books is \$182,450.10.

The actual revenue this year from the operation of this law, is, however, much larger; as more has been paid out during the year on account of claims of the previous year, than now remains in the treasury, due or to become due on this account. This difference amounts to \$25,297.77, which, added to the above, makes the net revenue, due to this source, \$207,747.87. This amount, I am informed, may be reduced some two thousand dollars by unadjusted claims, leaving the net result substantially the same as last year. I am not aware of any change that can be made to render the law more satisfactory in its working, and the objections which have been made in the past, seem to be found of less importance as the law becomes more familiar.

CORPORATION TAX LAW.

A reduced revenue was expected from this source in consequence of the general depression of business, but the reduction, although considerable, is not so great as was feared. The balance to the credit of this account at the close of the

* Paid on or since January 1, 1876.

year, is \$308,670.21. The actual net revenue from this tax for the year past, including the tax on mining companies, is \$321,999.43.

THE PUBLIC DEBT.

The debt of the Commonwealth is all funded, and on the first of January, 1875, it amounted to . . . \$29,465,204 00

It has been increased during the year 1875, by the issue of the following loans :—

Troy and Greenfield Railroad and Hoosac Tunnel, under authority of chapter 402 of the Acts of 1874, \$1,500,000, which was issued in five per cent. sterling bonds, payable January 1, 1895, £309,500 at \$4.84,	\$1,497,980 00	
Worcester Lunatic Hospital (new), authorized by chapter 160 of the Acts of 1875, \$750,000, issued in five per cent. dollar bonds, payable May 1, 1895,	750,000 00	
Danvers Lunatic Hospital, authorized by chapter 203 of the Acts of 1874, issued in five per cent. dollar bonds, payable July 1, 1894,	250,000 00	
New State Prison and Prison for Women, authorized by chapter 391 of the Acts of 1874, \$1,300,000, issued as a sterling loan, five per cent., payable July 1, 1895, £267,000 at \$4.84,	1,292,280 00	
Troy and Greenfield Railroad and Hoosac Tunnel, authorized by chapter 220 of the Acts of 1875, issued as a five per cent. dollar loan, \$1,300,000,	1,300,000 00	
Total increase,	<hr/> 5,090,260 00	
		<hr/> \$34,555,464 00

It has been diminished by the following payments; on account of the—

Union Loan,	\$432,000 00	
Harbor Improvement Loan,	230,000 00	
Almshouse Loan, due in 1874,	1,000 00	
Amounts carried forward,	<hr/> \$663,000 00	<hr/> \$34,555,464 00

<i>Amounts brought forward,</i>	.	.	\$663,000 00	\$34,555,464 00
Prison and Hospital Loan, due in 1874,	.	.	1,000 00	
Prison Temporary Loan,	.	.	5,000 00	
Total reduction,	.	.	<hr/>	669,000 00
Leaving a total debt of	.	.	.	<hr/> \$33,886,464 00
Showing a net increase during the year 1875, of	.	.	.	\$4,421,260 00

The above payment, on account of the Union Loan, was made from the sinking fund established for the purpose. The payment on account of the Harbor Improvement Loan, being the balance of that debt, was paid from the revenue, as provided by law.

The premiums realized on the sale of the state bonds during the year, ranged from nine per cent. to fourteen per cent., averaging over ten and a half per cent. on the whole amount, after deducting the expenses of preparation and negotiation, amounting to \$539,433.20, which is carried to the several sinking funds, as provided by the laws authorizing the loans.

On the first day of July next, an instalment of \$1,424,000 of the Union Fund Loan will become due and payable from the sinking fund provided for the redemption of that loan. That fund has at the present time, as will appear by the table of funds, a cash balance of more than \$674,000, and securities which are instantly convertible, much more than enough to meet this payment, or, indeed, the entire balance of the loan.

No further payment of the public debt will become due till 1877, when \$850,000 will mature; and after that, only \$420,000 will mature till 1883.

No further loans have been authorized by the legislature.

The following table shows the aggregates of the several loans constituting the present debt of the Commonwealth, with the rates of interest, and the times and places of payment:—

The "Massachusetts School," "Todd Normal School," "Rogers Book," and "Agricultural College" Funds, amounting to \$2,438,406.20, are permanent trust funds, the incomes of which are by law appropriated to educational purposes. The "Harbor Compensation Fund" is appropriated by law to harbor improvements. It now amounts to \$130,504.33. All the other funds, amounting to \$11,725,327.14, together with all their incomes, are by law appropriated to the payment of the public debt.

The land and flats at South Boston, which were sold to the Boston, Hartford & Erie Railroad Company, and afterwards purchased by the Commonwealth under a foreclosure of the mortgage, amounting to \$545,505, are now a part of the investments of the Troy & Greenfield Railroad Sinking Fund, and are represented in the files of said fund by a deed of the premises, dated January 13, 1872, from Peter Harvey and others, Trustees, to the Commonwealth.

It is estimated that this property is worth more than the cost as above, but at the present time it is entirely unproductive.

The other means ultimately available for the payment of the public debt are the same as stated in the last annual report :

Amount due from the Boston & Albany Railroad Company	
for land and flats at South Boston, due Oct. 1, 1876,	\$435,600 00
A claim against the general government, which has been	
allowed, but no appropriation made for its payment,	
about	250,000 00
The Troy & Greenfield Railroad and Hoosac Tunnel,	
now in operation, and which, including interest, has	
cost the State, to January 1, 1876,	15,093,910 61
Back Bay Lands unsold, estimated by the Commissioners	
at	1,300,000 00

The old lunatic hospital at Worcester and land; the old state prison and land at Charlestown, and the unimproved flats in Boston Harbor, estimated at between seven hundred and eight hundred acres, which must be wanted for improvement very soon, and will then be of great value.

Respectfully submitted.

CHAS. ADAMS, JR.,
Treasurer and Receiver-General.

REPORT

OF THE

AUDITOR OF ACCOUNTS

OF THE

Commonwealth of Massachusetts,

FOR THE YEAR ENDING

DECEMBER 31, 1875.

BOSTON:

WRIGHT & POTTER, STATE PRINTERS,

79 MILK STREET (CORNER OF FEDERAL).

1876.

Commonwealth of Massachusetts.

AUDITOR'S DEPARTMENT, BOSTON, Jan. 13, 1876.

Hon. JOHN D. LONG, *Speaker of the House of Representatives.*

SIR :—I have the honor to transmit herewith the Twenty-Seventh Annual Report of this Department, for the year ended December 31, 1875.

Very respectfully,

CHAS. ENDICOTT,
Auditor.

Commonwealth of Massachusetts.

AUDITOR'S DEPARTMENT, BOSTON, Jan. 13, 1876.

To the Honorable Senate and House of Representatives.

I have the honor to present to the legislature the Twenty-Seventh Annual Report of this Department, for the year ended December 31, 1875.

The statutes prescribing the matter and form of the Auditor's Report, which seem to be essential to a full understanding thereof, are as follows:—

“The annual report of the Auditor shall contain a summary statement of the receipts into and payments from the treasury of the Commonwealth for the preceding year; also a detailed and particular statement of the receipts and expenditures belonging to each year; said detailed statement of expenditures to include, first, the expense incurred during the year for the support of all permanent departments, services and institutions; and, second, all special and exceptional charges incurred for objects ordered within the year, the account being constructed in such manner as to show the expenditures actually incurred within the year, as far as can be ascertained, whether the same have been paid during the year, or whether the whole or part thereof remain unpaid at the close of the year.

“The Auditor's report in each year shall show the aggregate amount of funded debt at the beginning and end of the year respectively, the balance of increase or decrease, and a statement of the cause of such balance; and in like manner shall show the aggregate amount of all temporary loans at the beginning and end of the year, the balance of increase or decrease, and a statement of the cause of such balance. The report shall likewise state whether the ordinary expenses of the year have exceeded the income, or the contrary, and show the amount of balance.

“It shall be the duty of the Auditor to include in his report the items of all accounts of expenditures, so far as they may be useful or interesting to the people of the Commonwealth; and in particular, so far as may be practicable, the various heads of expenditure shall be separated, so as to show the different officers or boards under whose directions the several portions of the expenditure have been incurred; all salaries, and other general charges, shall likewise be separated, so as to show the different classes of officers who receive the several portions of the expenditure; and no expenditure exceeding five hundred dollars shall be included under any indefinite head, if it be composed of separate items.

“The Auditor's report shall annually contain a particular statement of the transactions of the funds belonging to, or held in trust by, the Commonwealth, including new investments of any portion of said funds, which may have been made during the preceding year, and also of the manner in which the moiety of the income of the school fund, applicable to educational purposes, has been disbursed.

“The Auditor shall also include in his report an estimate, for the current year, of the ordinary revenue of the Commonwealth, and of such other means as he may be able to point out, for the defraying of expenditures.”

The following Summary Statement shows the entire receipts into and payments from the treasury during the year.

For the actual expenditures properly belonging to the year 1875, so far as the same have been ascertained, reference must be made to Statement No. IX.

A tax of \$1,800,000 or \$2,000,000, depending somewhat upon the amount of extraordinary grants and expenditures that may be authorized at the present session of the legislature, will be required to meet the expenditures of the year, and leave the treasury at the end of the year with cash sufficient to answer the demands that may be made upon it before the ordinary revenues of the succeeding year shall begin to be realized, and thus save the necessity of resorting immediately to temporary loans.

NEW HOSPITAL AT DANVERS.

The additional loan of \$250,000 authorized for this hospital by chapter 203 of the Acts of 1874 has been negotiated during the past year; making the whole amount authorized and issued \$900,000. Of this amount the sum of \$574,840.39 has been paid from the treasury, leaving unexpended the sum of \$325,159.61.

NEW STATE PRISON AND PRISON FOR WOMEN.

By chapter 391 of the Acts of 1874, a loan of \$1,300,000 for these prisons was authorized. This was made a sterling loan, and was negotiated during the past year. The issue consisted of £267,000, which, at \$4.84, equals \$1,292,280. The aggregate payments upon the state prison amount to \$70,608.91, and upon the women's prison, to \$68,916.33.

TROY AND GREENFIELD RAILROAD AND HOOSAC TUNNEL.

By the Acts of the year 1874, chapter 402, a loan of \$1,500,000 was authorized on this account, and by the Acts of 1875, chapter 220, an additional loan of \$1,300,000 was authorized. The former was issued as a sterling loan, to wit: £309,500, at \$4.84, equal to \$1,497,980, and the latter as a federal loan, all of which was negotiated during the past year.

ANNUAL REPORT

OF THE

ADJUTANT-GENERAL

OF THE

Commonwealth of Massachusetts

FOR THE

YEAR ENDING DECEMBER 31, 1875.

1876.

ANNUAL REPORT.

ADJUTANT-GENERAL'S OFFICE, BOSTON, }
December 31, 1875. }

His Excellency WILLIAM GASTON, *Governor and Commander-in-Chief.*

SIR:—I have the honor to present herewith the Annual Report of this Department.

The past year has been one of extraordinary interest in military matters, occasioned by the celebration of the centennial anniversaries of the revolutionary conflicts at Concord, Lexington and Bunker Hill.

At these celebrations, there were present military organizations from sister States, and, with the militia of our own Commonwealth, gave a most interesting exhibition of the citizen soldiery of the Republic.

The effect of this service on our own troops is everywhere noticeable, especially in the efforts for improvement in organization, drill and discipline; and I believe there was never a time when, in case of need, the militia of this State could be of such effective service as now. There are defects in armament and equipment, of which I shall make mention hereafter.

The force consists of one division of three brigades, as follows:—

Eight Regiments of Infantry,	81 companies
Two Battalions of Infantry,	6 “
					—
Total of Infantry,	87 companies.
Two Battalions Light Artillery, 16 guns,	.	.	.	4	companies.
Unattached Artillery,	.	.	.	4 “	1 company.
Total of Artillery,	.	.	.	—20 “	5 companies.

One Battalion Cavalry,	4	companies.
Unattached Cavalry,	1	company.
Total of Cavalry,	—	5 companies.
		—
		97 companies.

Corps of Cadets, 2 companies.

Giving 99 organizations, in which there are 424 commissioned officers and 6,123 enlisted men.

Details as to the distribution by brigades will be noticed further on in this Report.

ARMAMENT.

In accordance with chapter 229, Acts of 1875, limiting batteries of artillery to four guns each in times of peace, orders were issued to the commanding officers of Batteries A and B, First Battalion Light Artillery, to turn over to the Quartermaster-General two guns each, with their usual appurtenances. This property is now at the arsenal. With the above exception, the militia is armed the same as last year.

Forty-one companies of infantry have Springfield muzzle-loading rifles, and thirty-six companies, and two Corps of Cadets, have Peabody breech-loading rifles. In the latter part of the year, under the law of Congress, approved April 23, 1808, for arming the militia of the country, requisition was made on the United States government for 1,200 Springfield breech-loading rifles, calibre 45, and I trust that early in 1876 this number will be received for distribution, to replace a portion of the muzzle-loading arms. In process of time, under the law of Congress above referred to, the State can receive an adequate supply of arms for its troops of a pattern corresponding with those in use by the general government.

EQUIPMENTS.

The Fifth, Eighth and Tenth regiments, and Fourth Battalion Infantry, have been supplied during the year with new equipments; viz., cartridge-boxes, bayonet-scabbards, and waist-belts with plates. The remaining infantry commands are without serviceable equipment of this character, and should be furnished next year.

The item of estimate for Quartermaster-General's supplies for 1876, forwarded to the Hon. Secretary of State, in compliance with law, is intended to cover expenditures for such equipment, in addition to other needed supplies.

UNIFORMS.

The following-named regiments, not supplied in 1874, were this year furnished with uniforms; viz., Fifth, Eighth and Tenth; thus, within the last eighteen months, new uniforms have been issued to the entire force of the State.

The uniform, by law, consists of hat or cap, dress-coat and trowsers. A deficiency still exists in the artillery and cavalry, in the supply of overcoats. A loss of uniforms occurred by fire in the armories of two companies of the Tenth Regiment, at Worcester, and one company of the Second Regiment, at Deerfield. By direction of the governor and council, the loss to the Worcester companies was covered by the issue of new uniforms. By the same authority, thirty-five uniforms were issued to Battery B, First Battalion Light Artillery, to replace that number stolen from the armory of the battery.

CAMP EQUIPAGE.

The number of tents now on hand is inadequate to the proper shelter of the troops at camp, and frequently private expenditure has been necessary to meet the wants of this character. I have been able from year to year to furnish a few new tents, and have kept those on hand in as good repair as possible, but a large number have become unserviceable. This deficiency can be supplied under the estimates for the coming year.

CAMP-GROUND.

No appropriation being made for improvement of the camp-ground, I have not been able to accomplish the grading of the parade-ground, and about the arsenal and dwelling-house. Drainage is imperatively required on some portions of the field where the tents have always been pitched, as shown by the flooding of such portions during the heavy showers while the encampments were in progress last summer.

This will require but a moderate outlay, and will result in permanent good to the grounds, and guard against danger to the health of the troops. Another matter of the greatest importance is the building of a magazine for the storage of powder and ammunition for small arms. At present the property of such dangerous description is stored in the new arsenal, and guarded with such care as is possible, but it is apparent that this is no proper place for it. It cannot be preserved free from moisture, and no adequate supply can be kept on hand. During the encampments, the building is open for the delivery and receipt of camp equipage, and a large number of persons are necessarily about it, thereby greatly increasing the risk. The workshop, which is located directly above the room now used as a magazine, with only a wooden floor between, must be warmed for use in the winter months, and although the utmost caution is enjoined upon the employés, it is not difficult to imagine the result from a possible accident by fire. I earnestly recommend an appropriation which will enable me to make proper provision in this matter.

All the serviceable property of the State which has heretofore been kept in the arsenal at Cambridge, has been moved to the arsenal at South Framingham. A lot of unserviceable articles which would not be worth moving were ordered by the governor and council, June 1, to be sold. The sale was effected in September for the sum of \$300, which amount was expended in the purchase of revolvers for Company F, Cavalry. An appropriation of \$4,500, for fencing the camp-grounds was made on the 19th of May last. In prosecuting the work of building the fence, it was found necessary to first establish the lines of the streets about the grounds, requiring the services of a civil engineer, at a cost of \$47. Samples of different styles of fence for the consideration of the executive council, in deciding what kind of fence should be constructed, were prepared at a cost of \$20.88.

The removal of old walls, grading along the line, and building of 2,000 feet of fence, has been accomplished at a cost of \$3,000, leaving on hand \$1,500. This amount is not sufficient to finish the work; but it can be completed with this sum and under the estimate for the camp-ground the coming year.

SERVICE.

Considering it a matter of importance that official record should be made of the duty performed by our own troops at the celebrations of the year, in addition to the service required by law, and to note the presence of military organizations from other States, I have entered somewhat minutely into the subject, without attempting any description of the routes or order of processions.

I cannot, for the celebrations, be expected to accord praise for one command over another, for these days will be remembered more as occasions of fraternal greeting than otherwise, when every officer and soldier, of visiting commands and of our own troops, tried to do his best.

The following organizations performed duty at Concord, April 19 :—

First Corps of Cadets, 110 men, Lt. Col. Thomas F. Edmands, under orders of commander-in-chief as escort to him. (Special Orders, 31.)

Detail from Battery A, First Battalion Light Artillery, in command of Capt. E. C. Langley. (Special Orders, 30.)

The Fifth Regiment, Col. E. J. Trull, volunteered its services as escort to the procession, Company C of this regiment, located in Concord, being detached for the day as escort to the President of the United States.

The Second Corps Cadets, Lt. Col. A. Parker Browne commanding, escorted the city government of Salem.

Company F, Cavalry, Capt. Christopher Roby, escorted the citizens of Chelmsford.

Company C, First Regiment Infantry, escorted the city government and citizens of Newton.

The Newburyport Veteran Artillery Association escorted the city government of Newburyport.

Petitions were granted early in the year for the formation of companies of minute-men, in Acton, Wayland, Peabody and Weston. These organizations conform as nearly as possible to those of the minute-men of 100 years ago, and made a very creditable appearance. They furnished themselves with uniforms, but for the temporary service of the centennial

celebrations were loaned a supply of old Springfield muskets, which have since been returned to the arsenal.

From other States, the following-named organizations were present at Concord : —

Mechanic Blues, Portland, Me., 50 men, Capt. Charles J. Pennell.

Amoskeag Veterans, Manchester, N. H., 100 men, Maj. George C. Gilmore.

Manchester, N. H., School Cadets, 46 men, Capt. F. H. Challis.

Ransom Guards, St. Albans, Vt., 60 men, Capt. J. W. Newton.

Providence Light Infantry Veteran Association, of Providence, R. I., Maj. Genl. A. E. Burnside.

First Light Infantry Veterans, Providence, R. I., Col. W. W. Brown.

Putnam Phalanx, Hartford, Conn., 122 men, Maj. Henry Kennedy.

On the same day the First Corps Cadets continued as escort to your Excellency to Lexington, at which place the Militia was represented by the following-named commands : —

Company A, First Battalion Cavalry, Capt. Cyrus C. Emery, in the performance of duty usually required on the last Wednesday in May. (Special Orders, 30.)

Detail from Battery C, Second Battalion Light Artillery, under command of Lieut. Charles O. Boyd. (Special Orders, No. 30.)

The Fourth Battalion Infantry, Maj. Austin C. Wellington; Companies D and G, First Regiment Infantry, Captains W. A. Smith and H. A. Snow, respectively; Company B, First Battalion Cavalry, Capt. David Scott, performed voluntary service.

The Ancient and Honorable Artillery Company, Maj. Dexter H. Follett, captain, performed escort duty to the procession.

There was also present a company of Lexington minutemen, authorized by Special Orders, No. 81, 1874; and by provisions of Special Orders, No. 52, 1875, is continued till October, 1876, for the purpose of attending the Centennial Celebration in Philadelphia, and to close up its affairs.

SEVENTEENTH OF JUNE.

The legislature of this year, in providing for the centennial celebrations by chapter 102, approved April 17, authorized the commander-in-chief to order the parade of the Volunteer Militia required by law on the last Wednesday in May, to be made at such other time or times, and at such place or places as he should determine. Under this authority, by General Orders, No. 9, May 20, 1875, the entire Division, with the exception of Company A, First Battalion Cavalry, was ordered to this city, on the 17th of June, for inspection, review, muster, and for such other duty as might be directed. On the morning of that day, Maj. Genl. Benj. F. Butler, commanding the Division, reported in person at the hour appointed, but the movement of the troops in review was unavoidably delayed by the non-arrival of part of the command, their detention being caused by the immense tide of travel on the routes by which they reached this city.

Shortly after nine o'clock, the First Corps of Cadets, Lieut. Col. Thomas F. Edmands, reported to the Adjutant-General for escort to your Excellency, and were drawn up in line on Beacon Street, right resting on Park Street.

On the platform erected on the sidewalk, in front of the main entrance to the State House, for the purpose of the review, there were, in company with your Excellency and staff, the Executive Council, and both branches of the general court, the mayor of Boston, the vice-president of the United States, members of Congress, judges of the United States courts, general of the United States army and staff, governors of several States, officers of the army and navy, and a large number of other distinguished individuals. About half-past ten, all the troops had arrived and were put in motion from their rendezvous on Boston Common, over Tremont to Beacon Street, thence past the reviewing stand. The review was a gratifying success; the general appearance of officers and men, their new uniforms, and partial new equipment, and their marching, all received the most favorable comments from Genl. Sherman and his staff, and other prominent officers of the United States army, while the great throng of lookers-on manifested their delight at the spectacle by frequent and

hearty clappings of hands. Immediately upon the passage of the rear of the Division of our own militia, came the following-named commands from other States, in the order mentioned, volunteering for review, and eliciting hearty commendation :—

Seventh Regiment National Guard, State of New York, Col. Emmons Clark, with 600 men. Band and drum corps of 80.

First Regiment National Guard, State of Pennsylvania, Col. R. Dale Benson, 500 men. Band and drum corps, 90.

Second Regiment National Guard, State of Pennsylvania, Col. Peter Lyle, 376 men. Band, 21.

State Fencibles of Philadelphia, Penn., Capt. John Regan, 84 men. Band, 43.

Artillery Corps, Washington Grays, Philadelphia, Penn., Capt. Lewis D. Baugh, 48 men. Band, 18.

Gray Invincibles of Philadelphia, Capt. A. Oscar Jones, 158 men. Band, 20.

Washington Light Infantry, of Washington, D. C., Capt. Wm. G. Moore, 54 men. Band, 21.

First Regiment Light Infantry of Rhode Island, Col. Robert H. I. Goddard, 238 men. Band, 38.

Meagher Guards, Providence, R. I., Capt. Peter McHugh, 45 men. Band, 32.

Hillyer Guards, of Hartford, Conn., Capt. James T. Sherman, 95 men.

Mansfield Guards, of Middletown, Conn., Capt. R. Graham, 49 men.

Fifth Regiment Maryland National Guard, Col. J. Striker Jenkins, 450 men. Band and drum corps of 80.

The review, including that of the visiting troops, occupied about an hour and a half. Of Massachusetts troops, there were present 431 commissioned officers, 5,563 enlisted men, 306 members of bands ; a grand total of 6,300.

Of visiting organizations there were 3,138 ; making the aggregate number passing in review 9,438.

After the review, Genl. Butler, in obedience to previous instructions, placed his command in position for escort to the great procession organized under the auspices of the city of Boston, with Genl. F. A. Osborn as Chief Marshal, for whose escort the Fourth Battalion Infantry, Maj. A. C. Wellington, was detailed. The procession moved about one o'clock

from Columbus Avenue, passing through the city towards Bunker Hill, where the troops in advance arrived about three o'clock, and where the procession was dismissed. I give herewith the names, in addition to those already mentioned, of other visiting military organizations : —

Companies D and E, Fifth U. S. Artillery, Bvt. Maj. Genl. Richard Arnold, major commanding, 100 men.

Company E, First N. H. Regiment, Col. John J. Dillon commanding, 45 men.

Portland (Me.) Cadets, Capt. N. D. Winslow, 45 men. Band, 25.

First Troop of Philadelphia City Cavalry, Lieut. A. L. Snowden, 50 men.

Governor's Foot Guard, Hartford, Conn., Maj. John C. Parsons, 75 men.

Old Guard of New York, Maj. G. W. McLean, 60 men. Band, 45.

Seventh N. Y. Veterans, Col. Marshall Lefferts, 200 men. Band, 36.

Putnam Phalanx, of Hartford, Conn., Maj. Henry Kennedy, 140 men. Band, 12.

Washington Light Infantry, of Charleston, S. C., Maj. R. C. Gilchrist, 50 men.

Providence Light Infantry Veteran Association, Maj. Genl. W. W. Brown, colonel commanding, 150 men. Band, 10.

Norfolk Light Artillery Blues, Capt. J. W. Gilmer, 65 men.

Amoskeag Veterans, of Manchester, N. H., Genl. P. S. Gilmore, 100 men. Band, 25.

Newport Artillery Veteran Association, Col. Julius Sayer, 90 men. Band, 28. Total, 1,351.

Of recognized military organizations of this State other than the Militia, there were present : —

Ancient and Honorable Artillery Company of Boston, Major Genl. N. P. Banks, captain commanding, with 162 men. Band, 25.

Newburyport Veteran Artillery Association, Col. E. E. Stone, 80 men. Band, 18.

Salem Light Infantry Veteran Association, Col. John F. Fellows, 63 men. Band, 18.

Amesbury and Salisbury Veteran Artillery Association, Col. Newell Boyd, 100 men. Band, 25.

Lexington Minute-men, Lieut. E. L. Zalinski, U. S. A., acting major, 98 men. Band, 25.

Boston School Regiment, commanded by Col. Wm. B. Lawrence, comprising: Latin School Battalion, Maj. Edward Robinson, 99; English High School, First Battalion, Maj. E. C. Wild, 143; Second Battalion, Maj. George Nickerson, 140; Highland Battalion, Maj. A. L. Jacobs, numbering 147. Total, 529.

The total attendance of militia and military bodies is as follows:—

First Division, M. V. M.,	6,300
Visiting military bodies,	4,489
Other military organizations of Mass.,	1,146
Company A, First Battalion Cavalry, as voluntary escort to legislature,	103
Aggregate,	<hr/> 11,038

One attractive feature of this grandest of celebrations was the presence in our midst of organizations from the South, which had served in the Confederate army during the late war, their members now mingling among the soldiers of the Union with whom they had so often contended, and together celebrating the glorious deeds of the soldiers of the Revolution. The day and the occasion were for memories of events and conflicts in which an ancestry of common spirit and purpose had engaged, and the reception accorded these organizations wherever they appeared, and the courtesies extended to them, public and private, were of the heartiest character. The conduct of the visitors throughout their stay was only such as to inspire the utmost confidence.

ELEMENTARY DRILLS.

Rolls were received from fifteen organizations for duty at Elementary Drills, showing 1,614 officers and enlisted men present. The ordering of this duty is optional with commanding officers of regiments, battalions, corps of cadets, or detached companies.

ENCAMPMENTS.

The following table exhibits the date and place of the five days' encampment of the militia:—

ORGANIZATION.	Commanding Officer.	Date of Encampment.	Place of Encampment.	Number of Order.	Date of Order.
First Corps of Cadets, . . .	Lt. Col. Thomas F. Edmands,	July 19,	Nahant, . . .	Special, No. 86, .	June 26.
First Brigade, . . .	Brig. Genl. Isaac S. Burrell,	Aug. 3,	State Camp-ground, .	General, No. 11, .	June 26.
Second Corps of Cadets, . . .	Lt. Col. A. Parker Browne, .	Aug. 10,	Magnolia, . . .	General, No. 11, .	June 26.
Second Brigade, . . .	Brig. Genl. Geo. H. Pierson, .	Aug. 17,	State Camp-ground, .	General, No. 11, .	June 26.
Third Brigade, . . .	Brig. Genl. R. H. Chamberlain,	Aug. 31,	State Camp-ground, .	General, No. 11, .	June 26.

The First and Second Corps of Cadets, without allowance for transportation or rent of grounds, were permitted to encamp elsewhere than at South Framingham. Their camps were models for cleanliness, and both officers and men appeared to make the purpose of the encampment one of personal improvement in the duties of the soldier.

The three brigade encampments are deserving of most favorable comment. The routine of duty required each day was evidently calculated to consume most of the time between reveille and retreat, yet no complaint of overwork has been filed. Special efforts were made for the thorough policing of the grounds each day, with better success than in former years. The last days of the tour of duty exhibited marked improvement in drill and discipline, and particularly in the performance of guard duty.

Details were made the same as last year of a small number of mounted men for patrol duty in and about the grounds during the night previous to each encampment, for protection of such public and private property as had already been deposited on the field, in preparation for the establishment of the camp.

Company F, Cavalry, of the Second Brigade, was detailed for duty with the Third Brigade for service as patrol and escort. At these encampments there were in all present: Commissioned officers, 445; enlisted men, 5,203; members of band, 324,—a total of 5,972.

I cannot fail to speak of the very cordial reception given yourself and staff at all these encampments, both by the militia and the citizens of the localities where the encampments were held. By giving a part of two days to each brigade, opportunity was afforded, not only for the official review, but to witness the evolutions of the troops, and to become more familiar with the character of the officers and men comprising the commands.

The following table shows the number of troops on duty for the three past years:—

	1873.	1874.	1875.
May inspection,	4,587	4,622	6,300
Elementary drills,	689	1,352	1,614
Camp duty,	4,650	5,845	5,972

Additional expenditures have been consequent on this increased attendance, but it is probable for the future that the percentage of the whole force of the State in attendance upon these tours of duty will be less than that of the present year.

REGULATIONS.

There are many things which a soldier learns in camp, as a part of his duty, which are not and cannot be laid down in a militia law, or revised tactics. These, and other matters of detail, are like those which in actual service are covered by the army regulations. A board of experienced officers will readily comprehend them, and I believe would gladly undertake the work of preparation of a book of "Regulations for the Militia," which could be published in convenient form for the individual use of officer and soldier. These regulations, after most thorough examination, should have the approval of the legislature, and would then have the force of law. The expense of the whole work will be inconsiderable, and I believe, as a result of its publication and use, great good will come. Prominent officers with whom I have conferred upon this matter, give it their most hearty recommendation and approval.

ARMORIES.

The inspection of armories throughout the State shows, as a whole, that increased facilities are being provided by cities and towns for the proper care of arms, equipments and uniforms, but in several localities there is need of improvement. During the year two companies of the Tenth Regiment in Worcester, and one company of the Second Regiment at South Deerfield, suffered considerable loss in arms, equip-

ments and uniforms by fire. The officers and men of these commands deserve honorable mention for their efforts made to save the property of the Commonwealth in their possession, Capt. Bridges of the Second Regiment remaining so long in his armory collecting uniforms as to make it necessary to find his way to the open air through the flames which, without his knowledge, had enveloped the entrance to the building. I recommend that the losses to these organizations, not yet supplied, be made up to them next year, as early as the appropriations will admit.

BOARD OF EXAMINERS.

Herewith will be found the report of the Judge-Advocate General, as President of the Board of Examiners, appointed in accordance with sect. 21 of the Militia Law :—

OFFICE OF JUDGE-ADVOCATE GENERAL, }
Boston, Jan. 5, 1876.

Maj. Genl. JAMES A. CUNNINGHAM, *Adjutant-General*.

SIR:—In compliance with your request for a report of the proceedings of the Board of Examiners for the past year, I have to say that 27 meetings have been held; 155 officers have been ordered before the board. Of this number 128 passed favorable examination, 4 were rejected, 18 failed to appear, 4 await examination, and 1 declined commission.

Very respectfully, your obedient servant,

PATRICK A. COLLINS,
Judge-Advocate General and President of Board.

EXTRA DUTY.

Portions of the militia performed extra duty during the year, as follows :—

First Corps of Cadets and detachments from First and Second Battalions Light Artillery, at Lexington and Concord, by orders of the commander-in-chief.

Companies B and G, Second Regiment, at fire in Springfield, May 30 and 31, by precept of the mayor of the city.

Company A, First Battalion Cavalry, commencement at Harvard College, by orders of the commander-in-chief.

Detachments from First Battalion and Company F, Cavalry, on the nights previous to the commencement of the brigade encampments, by orders of the commander-in-chief.

Company H, Second Regiment, at the fire which destroyed the business portion of South Deerfield, by precept of the sheriff of the county.

Companies B, D, E, F and G, of the Third Regiment, by precept of the mayor of Fall River, during the riotous proceedings in that city in October.

I give herewith the report of Col. Davol of the duty performed by his command:—

HEADQUARTERS THIRD REGIMENT, M. V. M., }
FALL RIVER, Oct. 4, 1875. }

Maj. Genl. JAS. A. CUNNINGHAM, *Adjutant-General M. V. M.*

GENERAL:—I have the honor to report that after a vacation of eight weeks, voted for and carried out by the mill-operatives themselves, the manufacturers of this city concluded to open their doors on Monday morning, the 27th ultimo, for them to go to work upon certain conditions. They assembled at the various mills at the time appointed, a few signing the agreement and going to work, but a large majority remaining outside, with the intention, apparently, of influencing others from entering the mills. A procession was formed in the northern part of the city, and marched around to the different manufactories, hooting and jeering at those who had commenced work, and, in some instances, throwing stones or other missiles at the mill windows. This body, continually increasing in numbers, after leaving the mills, proceeded to the park in the southern part of the city, and held a meeting. The crowd had, by this time, increased to several thousands. At this meeting, a committee was chosen to wait upon the mayor to ascertain if he would assist them. He informed them, that as they had refused work this morning, he could not assist them. The reply of the committee was to the effect that if that was his answer they would not be responsible for any act that might be committed. The committee then returned to the park to report the result of their interview. Being present at the conference between the committee and the mayor, he (the mayor) asked me to hold a portion of my command in readiness, as they might be needed; he also informed me that he had, the night before, ordered the entire police force to be held in readiness for any emergency. I immediately telegraphed Lieut. Col. Frederick Mason, of Taunton, to hold Companies F and G (Captains Hodges and Morse), respectively, and to Capt. Butler, Company E, of New Bedford, to hold his company in readiness to report at a moment's notice, in case they were wanted. I also

ordered Captains Richardson and Sayward, commanding respectively Companies B and D, to assemble their commands for duty, without delay, when called upon.

The report of the committee^r was presented to the meeting, which then voted to assemble around the city hall, and demand of the mayor instant relief. The mob then took their departure from the park, and coming down South Main Street hooting and yelling, bearing sticks with loaves of bread (stolen from a bread wagon) upon them, banners, flags, etc., halted in front of the city hall, and demanded assistance of the mayor, at the same time acting in a very disorderly manner, throwing loaves of bread at the police and members of the city government, who were standing upon the sidewalk in front of the city hall. The mayor was unable to gain a hearing, and finally ordered the crowd to disperse; they not doing so, he ordered the police to clear the street, which they did in a very creditable manner, amidst a shower of stones and other missiles, making several arrests. Several of the police were hit, but none of them injured severely. The mayor then issued his precept, in accordance with section 122, chapter 320, laws of 1874, a copy of which is hereby transmitted, directing me to order five companies of my command to report for duty to assist the civil authorities in maintaining the peace. I immediately telegraphed Companies E, F and G to report by first conveyance, and ordered Companies B and D to report immediately at their armory. The command was obeyed with alacrity, and in good numbers, as you will see by the consolidated morning reports herewith transmitted. It was half-past eleven A. M. when the Taunton companies received their orders, and at half-past one were on their way here by the first train that left their city. Company E, of New Bedford, came on the first train after receiving their orders, bringing every man belonging to this company that was in the city. Too much praise cannot be given them for the promptness with which the companies responded to the call for duty, as it shows that they can be relied upon in time of need, and but to order is to obey.

Their prompt appearance in our streets had the desired effect, for although they were hooted and hissed at by the excited crowd, while marching to the armory, the evening and night that followed was remarkably quiet, much more so than usual, as was reported by the police the next morning, and has remained so during the week.

At night, I divided my command, retaining two companies in the centre of the city, where I made my headquarters, and stationing one company in the eastern, one in the northern, and one in the southern portions of the city, where I had telegraphic communication with them at all times. Meetings of the operatives were held

daily, and many inflammatory speeches were made, and a vote was passed to remain out another week, notwithstanding which the mills steadily gained, the help evidently feeling that they would be protected if they went to work. At last, on Friday afternoon, the spinners held a meeting, and voted to go to work. This seemed to settle the matter beyond a question. Friday evening, Mayor Davenport sent me a request (a copy of which is herewith transmitted) to relieve my command at the earliest opportunity, as the object for which they were called together had been accomplished.

I immediately relieved Companies B and D of this city, and they repaired to their homes the same evening. Companies E, F and G were relieved the next morning (Saturday, 2d).

Lieut. Col. Frederick Mason and the members of my staff were promptly on hand, and performed their duties in a manner alike creditable to themselves and as officers of the Massachusetts Volunteer Militia.

Many of our leading citizens think, and I have no doubt of it in my own mind, that the prompt and determined attitude of Mayor Davenport, in calling out the military to aid the police, saved the city from a disgraceful riot.

I have the honor to remain, your most obedient servant,

(Signed)

B. D. DAVOL,

CELEBRATION AT PHILADELPHIA.

Portions at least of our militia will desire to visit Philadelphia in July of next year, at the great Centennial celebration, and with an organization second to none in the country, the representation which Massachusetts ought to make of her militia should be such as to sustain her already enviable reputation.

I suggest for consideration a plan which may insure the attendance of the entire division without additional cost to the State; viz., to provide for no other duty during the year but that of the usual camp-duty for five days, with permission for such encampment to be held beyond the limits of the State; cut off the allowance for transportation, and authorize the quartermaster-general to contract at lowest possible rates for the transportation of the militia to and from Philadelphia, and I am satisfied that no increase over the expenses usually required by law will be made.

EXPENSES.

The expenses of our military establishment are attracting considerable attention. Doubtless they will receive from the incoming legislature close scrutiny, and if, as has been favored by the daily press, a reduction of the force becomes a necessity, considerations of public good will demand the existence of some military power behind the civil authority; and whatever that may be, it should be thoroughly sustained.

RIFLE PRACTICE.

I regard the movement made by a portion of the militia in the matter of target practice as of great importance. I believe the subject will become of absorbing interest the next year. The allowance for transportation to the state camp-ground, as provided by law, could not be made for the match held in November, as the appropriation under which it would ordinarily be paid had been previously exhausted. I am not yet prepared to make suggestions as to the best methods of procedure in this matter, but instruction should be given upon some general plan, and to aid in such a purpose, the use of Wingate's Manual was authorized by General Orders, No. 14. It may be proper to designate an officer already in commission, qualified for the work, as Inspector-General of Rifle Practice, whose duty it should be to have general supervision of this branch of military drill, and teach subordinate officers. In the future, superior skill will be necessary in the use of improved weapons, and rifle practice should be encouraged to make skilled marksmen. I give herewith an extract from the report of the statistical officer of the match held at South Framingham, November 17 last, thinking it worthy of record, and for comparison in the future.

The following is a recapitulation of the scores, showing the relative rank of the competing teams :—

MILITIA LAW.

The statute of 1874, now governing the militia, gives general satisfaction, but should be supplemented in matters of detail by the book of regulations to which reference has been made in this report. Under the present law, the first trial by court martial has been recently held, showing that its workings have been less cumbersome than in the usual manner of such trials, and much less expensive.

EXPIRATION OF SERVICE.

The term of service of 2,213 enlisted men, whose names now remain on the rolls of enlistments in 1873, will expire in June and July of next year, but enlistments subsequent to July, 1873, to fill vacancies occasioned by discharge and death, and the probable reënlistments among those men whose terms expire this year, will be sufficient to maintain the organizations in a good degree of efficiency.

ADJUTANT-GENERAL'S OFFICE.

The clerical force of this office has been increased by one this year, by Act of the legislature requiring that records be prepared, under the direction of the Adjutant-General, of all sailors and marines enlisting on the quota of the State dur-

ing the recent war. This work is progressing in a satisfactory manner ; but from its nature, and the condition of the original books from which the record is taken, great care is necessary to secure an accurate statement for publication. Muster-out rolls of officers and soldiers of volunteers in the army were made for the State when the term of service of organizations expired, but no corresponding record was ever furnished of officers and seamen in the navy ; as a consequence, the history of the volunteers in the naval service is incomplete, and a constant inquiry of the navy department at Washington is necessary for the dates of discharge, in numerous cases of claims on account of service during the Rebellion. By this inquiry, the final discharge of many sailors has been obtained, but against a great majority of the 25,000 names of Massachusetts volunteers in the United States navy on our rolls, there is simply borne the date of enlistment. Every city and town in the Commonwealth must be, to a greater or less extent, interested in the completion of these records, on account of the important evidence which they will contain as to settlements arising from service in the war. I have made arrangements with the Hon. Secretary of the Navy to transcribe from the files of his department the needed information to make these records complete. If progress is made in this direction, as I expect, the publication of the records need not long be delayed.

The calls for certificates of service have largely increased, upon request in person, and by letter from municipal authorities and others. These certificates are accepted as evidence of service in claims for back pay, pension and bounty, for preëmption of public lands, for state aid, and to establish pauper settlements. About ten thousand have been issued during the year.

Pay-rolls (in triplicate) for militia service are now made in this office, from muster-rolls of the various organizations as returned in compliance with law. Opportunity is thus afforded to apply a check upon the returns of officers, as all muster-rolls for duty are carefully compared with the record of each organization, kept in convenient form in this office, before pay-rolls are made. Errors in returns, and any appearance of false musters, are readily discovered.

Diplomas for service rendered in the army and navy during the Rebellion have been called for in more limited numbers during the past year than has been the case heretofore. I have confined their issue to the individuals, or their proper representatives, entitled to receive them, upon request, but for the last three years there has been a large decrease of applications. The issue in 1873 was 5,000; in 1874, 3,000; in 1875, 1,600. Up to December 31, 1872, the total issue was 25,000. To December 31 of this year, the aggregate issue is 34,600. When, by the law of 1869, about 164,000 persons were entitled to receive them, it is apparent, with the ratio of application as herein indicated, that the issue will not be completed for years to come. Many persons are still ignorant of the fact that the State has made provision for such diplomas; yet it is but just, since the issue has been entered upon, that all soldiers and sailors of the Commonwealth should receive this testimonial. Most of the returned volunteers of the war came back to the homes they had left at the outbreak of the Rebellion, and they or their heirs, and the heirs of deceased soldiers, could be reached through local authorities by public notice or otherwise. I suggest that legislation may be necessary to further the distribution of these diplomas.

No change has been made in the division of office-work, and all the clerks are busily employed. Upon the completion of the navy records, a reduction of the force can be made.

REGISTER.

In place of the usual Roster published with the Adjutant-General's report, I have substituted a Register of the officers. The information contained in same cannot fail to be of interest, and will be convenient for use. The Rosters have contained the date only of the commission held by an officer at the time the report was issued; in the Register will be found the date of original entry into the militia and a record of subsequent service, covering, also, the period of the war for the Union, when many of the present officers of the militia served their country with honor.

In collecting data for this Register, it was necessary to have reports from each officer, and such reports were com-

pared with the files of this office, so that the record is of a most reliable character. The failure of a number of officers to make report prevents a complete statement in their cases. Attention is invited to the long and continuous service of many officers, whose evident patriotic purpose and desire for the public good are worthy of imitation and recognition.

To His Honor Samuel C. Cobb, mayor of Boston, I am indebted for courtesies, and to the officers of the various departments of the general government at Washington I make acknowledgments for the attention given to the frequent communications from this office.

Permit me, in closing this Report, to express to your Excellency my thanks for the kindness you have shown me in all our relations during the past year.

I am, sir, very respectfully,
Your obedient servant,

JAMES A. CUNNINGHAM,
Adjutant-General.

[GENERAL ORDERS, No. 6.]

Par. 1. For the purpose of supplying uniform records for Mustering Officers, books have been prepared for issue to such officers, who, upon receipt of same, will be required to enter therein the names of all enlisted men who have been connected with their commands since the muster-in of the Volunteer Militia, under the law of 1873. The names of non-commissioned staff officers will first be entered; afterward, by companies, the names of other enlisted men. Three or four pages will be allowed for non-commissioned staff, and ten or twelve for each company.

Under the head of remarks on each page, will be carefully noted all information affecting the loss or gain of men to the regiment, such as dates and cause of deaths and transfers, dates of discharge and muster-out; also, the number and dates of special orders, authorizing transfers, discharge, or muster-out.

Par. 2. *Par. 4,* General Orders, No. 9, from this office, series of 1874, is hereby countermanded.

Par. 3. Reports of deaths, and applications for discharge of enlisted men, will hereafter be made upon blank forms issued from this office, to be had upon request of commanding officers.

Maj. Genl. Benj. F. Butler, commanding Division M. V. M., is charged with the promulgation of this order.

By order of the Commander-in-Chief.

JAMES A. CUNNINGHAM, *Adjutant-General*.

COMMONWEALTH OF MASSACHUSETTS.

ADJUTANT-GENERAL'S OFFICE, }
BOSTON, Oct. 30, 1875. }

[GENERAL ORDERS, No. 14.]

Par. 1. Permission is hereby granted the several organizations of the Massachusetts Volunteer Militia, under direction of the commanding officers thereof, to use the state arms in their possession for the purpose of rifle practice, with blank and ball cartridge. Details from, or parts of organizations engaging in such practice, shall at all times be under the immediate command of a commissioned officer, who will, within ten days after the tour, forward through the proper channels to the Adjutant-General, a report of the scores made.

To secure uniformity of instruction, the militia will be governed by "Wingate's Manual."

The State Camp-ground at South Framingham can be used at any time by the militia for the purpose of target-practice, but no allowance will be made this year for transportation to and from the same. Whenever other grounds are used, great care must be exercised in their selection, and in no instance will firing across or over a travelled way be permitted. Officers are cautioned to frequently inspect the rifles when in use for firing.

Par. 2. Hereafter, officers presiding at elections in the Massachusetts Volunteer Militia, will indorse on the back of the election return the statement that the person or persons elected have been notified to appear before the Board of Examiners, appointed under sect. 21, chap. 320, Acts of 1874.

Par. 3. Officers, upon their first election in the militia, will immediately, when in receipt of their conditional commissions, make out and forward to these headquarters a record of their services, upon blanks furnished from this office.

Par. 4. Private Cornelius A. Bresney, Battery B, First Battalion Light Artillery, having enlisted under the name of Cornelius A. Breslin, in Company I, Ninth Regiment Infantry, while still a member of Battery B, is hereby discharged from the service of the State in said Battery B, and his muster-in to service in Company I, Ninth

Regiment, is declared null and void. All commanding and mustering officers are forbidden to enlist or muster-in the said Bresney, *alias* Breslin, again into the service of the State, without authority from this office.

By order of the Commander-in-Chief.

[SPECIAL ORDERS, No. 30.]

Par. 1. In accordance with the provisions of chap. 102, Acts of 1875, Co. A, First Battalion Cavalry, M. V. M., will parade on the 19th day of April, instant, to perform the duty required at the ordinary May inspection. Capt. Cyrus C. Emery will, on the morning of that day, proceed with his command to Lexington, and report to the Chief Marshal of the Lexington Centennial Celebration. Permission is granted for the parade in the uniform belonging to the company.

Par. 2. Maj. Dexter H. Follett, commanding First Battalion Light Artillery, M. V. M., will detail one commissioned officer and twenty-eight enlisted men, with two guns and caissons, from his command, for duty in firing salutes at Concord, Mass., on the 19th day of April, instant. The officer in charge of the detachment, on arrival at Concord, will report to the Chief Marshal of the Centennial Celebration in that town.

Maj. Follett will cause requisition to be made, without delay, for the necessary ammunition.

Par. 3. Maj. George S. Merrill, commanding Second Battalion Light Artillery, M. V. M., will detail from Battery C, of his command, one commissioned officer and twenty enlisted men, with two guns and caissons, for duty in firing salutes at Lexington, Mass., on the 19th of April, instant. The officer in charge of the detail, on arrival at

Lexington, will report to the Chief Marshal of the Centennial Celebration in that town. Maj. Merrill will cause requisition to be made, without delay, for the necessary ammunition.

Maj. Genl. Benj. F. Butler, commanding Division M. V. M., is charged with the promulgation of this order.

By order of the Commander-in-Chief.

either by a law limiting the rate of interest on loans, or the rate of ordinary dividends, and perhaps both. Such laws would destroy unwise competition for deposits; check any injurious accumulations of capital, where its use is limited, and where it may foster speculation, because its use is limited; secure uniformity of action among the banks, so far as that is desirable; and tend to make the constant and most urgent consideration in management the safety of the deposits."

In times of industrial prosperity, when business men find ready use for their capital, we may reasonably suppose that, with the exception of trust funds and the deposits of a few retired business men, most of the receipts come from the accumulations of labor, for which our Institutions for Savings were organized; but the statistics of the present year—which show an increase of deposits amounting to \$15,256,777.14 in 1874, and \$20,396,842.37 in 1875, while the increase in number of depositors in 1874 was 35,870, and in 1875 was but 18,540—would seem to justify the belief that our Savings Institutions are being made the deposit banks of a large number of business men, who place their money in Savings Banks on call, leaving it there at a time when it cannot be used with profit, and making withdrawals at a time and under circumstances which tend greatly to the disadvantage of the people for whom the bank was especially organized.

It is obvious that the immediate, or almost immediate, investment of the deposits as they are received by the banks entails the frequent purchase of stocks at high prices, in times when money is being deposited freely, and such securities are (as at the present time) selling for a premium; and the immediate repayment of deposits on demand, must conversely involve the frequent sales of stocks at low prices at a time when deposits fall off and withdrawals are numerous.

The rate of ordinary dividends paid by one hundred and seventy-seven banks was as follows:—

9 at 5 per cent.	1 at 6 $\frac{95}{100}$ per cent.
1 at 5 $\frac{3}{4}$ "	14 at 7 "
119 at 6 "	1 at 7 $\frac{12}{100}$ "
28 at 6 $\frac{1}{2}$ "	2 at 7 $\frac{1}{2}$ "
1 at 6 $\frac{3}{4}$ "	1 at 8 "

TWENTY-FIRST ANNUAL REPORT

OF THE

INSURANCE COMMISSIONER.

PART I.

FIRE AND MARINE INSURANCE.

To the Honorable the Senate and House of Representatives.

The Insurance Commissioner respectfully presents herewith the First Part of the Twenty-First Annual Report of the Insurance Department.

This volume contains the statements in detail of all the Insurance Companies, other than Life and Accident, doing business in this Commonwealth on the thirty-first day of December, 1875, as rendered to the Commissioner.

The whole number of such companies, duly authorized to transact business in this State, January 1, 1876, was two hundred and twenty-two, and may be classified as follows: Massachusetts Mutual Fire Insurance Companies, fifty-three (of which four have a cash guarantee capital amounting to \$700,000); Massachusetts Mutual Marine and Fire-Marine Insurance Companies, nine; Massachusetts Joint-Stock Fire and Marine Insurance Companies, twenty-six; Fire and Marine Insurance Companies of other States, one hundred and seventeen; United States Branches of Foreign Insurance Companies, fourteen; Plate-Glass Insurance Companies, two; Steam-Boiler Inspection and Insurance Company, one.

The following schedules show the companies admitted and withdrawn since the publication of the last report:—

CAPITAL AND SURPLUS OF MASSACHUSETTS COMPANIES.

The cash capital invested in the insurance business in this State, now amounts to \$8,024,200, as follows :—

Joint-Stock Companies,	\$6,567,000	00
Cash guarantee capital of Mutual Cos., .	700,000	00
“ “ fund of Mut. M. & F. M. Cos.,	757,200	00

A surplus over all liabilities, including capital and scrip, of \$4,575,405 is held by the companies of this State.

The increase of capital during the year has been, in Joint-Stock Companies, \$1,700,000; in guarantee capital of Mutual Companies, \$400,000; in cash guarantee fund of Mutual Marine Companies, \$18,700.

The surplus held by the Joint-Stock Companies now amounts to 33½ per cent. upon their capital, and several are in condition to make large stock dividends whenever they may deem it expedient. It will be seen, from the following schedule, that the Springfield Fire and Marine is the only company which has thus far made such dividends. The cash capital of this company is now \$750,000.

Schedule of all the Insurance Companies which have increased their Capital Stock, as provided by Chap. 375 of the Acts of 1872, and Acts subsequent thereto, from January 1, 1873, to March 1, 1876.

The final settlement of the affairs of these companies is principally delayed by suits in the courts and proceedings for foreclosure of mortgages. The question as to the disposition of funds remaining in the hands of receivers of mutual companies, after the losses have been paid, has been passed upon by the supreme judicial court, and the opinion of the court is of such importance to that class of companies, that an abstract of the points therein decided is here inserted:—

1. By the contract contained in the policies and by-laws, the insured are not entitled to interest upon their losses, in cases where the absolute funds are exhausted and a resort to the contingent liability of the members is necessary; an assessment cannot be made to pay interest.

2. The corporation or receivers are not liable to pay any losses which occur after the injunction and judicial sequestration of all its property.

3. An assessment cannot be made to pay claims for the value of unexpired policies, or for unearned premiums; and the receivers cannot pay them out of their surplus; but—

4. Such surplus should be repaid to the members who have paid their assessment in full, they having paid, under a mistake of fact, more than they were required by law to pay.

COMPANIES VOLUNTARILY CLOSING UP.

Central Mutual Fire Insurance Company.

The secretary of this company renders the following statement of its affairs December 31, 1875 :—

Assessments collected,	\$23,340 86
Collected from other sources,	3,340 99
Losses and expenses paid,	13,257 69
Cash on hand,	5,796 33

All losses have been paid except one, which is now in process of settlement through the courts.

The question as to how the funds on hand, after the payment of all losses, shall be disposed of, has occasioned considerable discussion; these funds having been received by calls upon deposit notes, the point is not covered by the decision before quoted. For reasons given in his last Report, page xix, the Commissioner is of the opinion that claims for unearned premiums in mutual insurance companies should be paid in full, provided a sufficient sum can be realized from the notes. If a sufficient sum cannot be realized from this source, a pro rata division should be made upon these claims.

Mutual Safety Fire Insurance Company, Wakefield.

The members of this company, realizing their liability to a heavy assessment, have decided to close up its affairs. All policies have been surrendered, and there are no outstanding liabilities.

New Bedford Companies.

Owing to the character of the marine business transacted by these companies, considerable time must elapse before

their affairs can be fully closed. The usual progress in this direction has been made during the year.

Since rendering their annual statement, the members of the Commercial Mutual Insurance Company have decided to discontinue business. All risks have been re-insured and the company retains its organization only for the purpose of closing its affairs.

The statement of the Union Mutual Marine Insurance Company may be found on pages 95–97. The whole amount of outstanding risks of this company, December 31, 1875, was only \$199,397. The terminations during the year were \$603,235. The condition of the company has materially improved during 1875, and after the discharge of all liabilities except scrip, a large sum will remain—the proper distribution of which may have to be determined by the courts. The question for adjudication is, whether the profits of the last members of the company shall be applied to the payment of outstanding scrip, the profits upon which the same was based having been, in part, dissipated by subsequent losses. Section 40 of chapter 58 of General Statutes provides for annual scrip dividends of the profits of Mutual Marine Insurance Companies, and declares that the certificates “shall contain a provision declaring the same to be subject to future losses and expenses,” and “subject to be reduced by the directors in case of losses and expenses in any subsequent year exceeding the estimated profits of such year.” The disaster to the Arctic fleet, and other losses during 1871, impaired the scrip reserve of this company \$328,608, or about 75 per cent. Had a corresponding reduction of the outstanding scrip been made at that time, as the statute evidently contemplates, the present question would not have arisen.

Housatonic Mutual Fire Insurance Company, Stockbridge.

This company having decided to discontinue business, the officers are now closing up its affairs.

These tabulations indicate that the companies, as a whole, have had another successful year. This is principally due to the decrease in the amount of losses incurred. Most of the Stock Companies have paid fair dividends to their stockholders, and it is worthy of note that these dividends, in the aggregate, have been paid from the income from interest, no part of the profits of the insurance business having been used for this purpose. For the three years ending December 31, 1875, the income of the Massachusetts Joint-Stock Companies, exclusive of receipts for premiums, amounted to \$1,422,084; dividends declared, \$867,250; balance, \$574,834. The stock dividend of the Springfield Fire and Marine is not included in this statement of dividends, as the amount still remains for the protection of policy-holders.

The Mutual Fire Insurance Companies of this State have had a notably prosperous year, having returned \$742,005 to holders of expired policies, and added \$363,297 to their net surplus. The risks written are about \$6,800,000 in excess of 1874, and the percentage of losses to premiums received has receded from 44 in 1874 to 32 in 1875.

There are other indications in the statistics of the year, not so favorable, but alike worthy of careful consideration. It is evident that the business is, so to speak, on the downward road. Most of the ratios indicate, like sign-boards, that continued prosperity lies in a different direction from that now pursued by the companies. The average premium rate on fire risks of all the companies doing business in this State has receded from 1.17 in 1874 to 1.10 in 1875. This fraction of seven one-hundredths of one per cent. seems a small reduction, but it amounts, on the Massachusetts business alone, to \$418,235, and on the whole business of the Companies, to \$3,909,085. In fact, the fraction, within which lies the success or failure of an insurance company, is a very small one.

The average rate upon marine and inland premiums has receded from 1.45 in 1874 to 1.30 in 1875. The returns of companies doing an inland business upon our lakes and rivers, plainly indicate that a reform is necessary in this branch of the insurance business. Eleven companies, not located on the seaboard, exhibit for the year, net inland premiums

received, \$519,476 ; losses paid, \$481,079. Estimating the expenses at 20 per cent. of net premiums, the business shows a loss of \$65,498. Of these eleven companies, seven exhibit a net loss, and the other four a profit of $\frac{1}{2}$, $1\frac{4}{10}$, 20 and 60 per cent., respectively.

Confining ourselves to the statistics of Massachusetts business (which will be found in detail, in Table XIV.), we find the average reduction of rate on fire business to be .05, or 4 per cent. The ratio of losses incurred to risks written, is more favorable, being .54 against .56 in 1874. The ratio of losses incurred to premiums received, remains the same ; viz., 44.5. This very low ratio accounts for the profits of the year. It is not, however, safe to assume that this is a fair ratio for a series of years, and companies which adopt it as a basis for premium rates, may make a serious mistake. While no one can doubt that the improvements in the construction of buildings in the city of Boston, and in the facilities for extinguishing fires, will have a marked effect in reducing the annual losses by fire, yet it will require a series of years to determine how great a reduction may be expected from, or attributed to, these causes. The exhibit of marine business is not so favorable to the companies. The average premium rate has receded from 1.84 in 1874, to 1.75 in 1875, or about five per cent. The ratio of losses incurred to risks written has increased from .93 in 1874 to 1.06 in 1875 ; and the ratio of losses incurred to premiums received has increased 20 per cent. Although there is yet an ample margin, or in nautical parlance, "sea-room enough," it will be well for the companies to have a sharp look-out, and keep the lead going.

It is probably true, that, so far as rates are concerned, the insurance business in this State is considerably *demoralized*, and Boston companies are charged with being the cause. If this demoralization was confined to this State, we might look here for the cause ; but as it is very general all over the country, it would seem to be nothing more nor less than a natural sequence to the period of high rates which prevailed after the great fires in Chicago and Boston. When, in consequence of a great conflagration, or a series of unprofitable years, companies (notably those of small capital) become

poor, they are clamorous for a combination for the purpose of increasing the rates, and prompt to unite with an organization formed for such purpose. But when the capital is restored, and a surplus accumulated, they become jealous of their associates, and ambitious to do more business. Having "waxed fat," they "kick." Meanwhile, encouraged by the high rates, new capital embarks in the business, and soon the new companies, reinforced by the seceders, offer to the public so large an amount of security, that, to save their business, other companies must yield. And so the pendulum of rates swings to and fro across the line of actual cost.

In order to see how well founded the complaint against the Boston companies is, a few ratios of Massachusetts fire business have been drawn, which have a bearing upon the case :—

Premium Rates on Massachusetts Business (Fire).

	1874.	1875.	Variations.
Massachusetts Joint-Stock Companies, .	1.29	1.22	— .07
Companies of other States, . . .	1.34	1.25	— .09
Companies of other Countries, . .	1.26	1.21	— .05

These ratios indicate that if the Boston companies have taken the lead, the other companies have closely followed.

There are other ratios drawn from the schedule of Massachusetts fire business, to which the attention of companies of other States is respectfully invited :—

Ratio of Losses Incurred to Premiums Received, 1875.

Massachusetts Joint-Stock Companies,	30 per cent.
Companies of other States,	53 " "
Companies of other Countries,	52 " "

Profit on Massachusetts Fire Business.—Expenses estimated at 30 per cent. of premiums.

	1874.	1875.
Mass. Joint-Stock Companies,	\$399,677, or 28 $\frac{1}{2}$ ct.	\$539,378, or 40 $\frac{1}{2}$ ct.
Companies of other States,	846,524, or 23 $\frac{1}{2}$ ct.	557,964, or 16 $\frac{1}{2}$ ct.

It is well known that the Boston companies write very lightly upon special hazards,—the principal part of this business being done by companies of other States. The figures above given indicate plainly that the rates upon this class of risks should not be further reduced.

While it is natural that the people of this State should be anxious to obtain their insurance at as low rates as possible, yet, at the same time, they want what they pay for—insurance ; and will not thank the companies to underbid each other to such an extent as to render certain an impairment of the security offered. Excluding from the profits of the year the amount derived from the business upon which the Massachusetts companies write most largely, there probably remains little or nothing to the credit of the special hazard business.

In view of the confidence imposed in, and the responsibility resting upon, the Insurance Commissioner, he feels that he cannot be too urgent in calling the attention of home companies, as well as those of other States, to these facts. Let Table XIV. of Massachusetts business be carefully examined. From the premiums received, deduct the losses incurred, and a fair percentage for expenses, and note how small is the margin of profit. At the same time, it must be borne in mind that the greatest reduction in rates was during the last three months of the year, and only a small percentage of the premiums upon these risks was earned on the first day of January, 1876.

STATISTICS.

The opportunity to obtain statistics of great value to insurers and insured, afforded by the taking of the Industrial Statistics and Decennial Census, was not overlooked by the Department. By arrangement with the Chief of the Bureau having the matter in charge, a number of questions, relating to the manufacturing business of the State, were inserted in the blanks furnished to the enumerators, the replies to which have been drawn off upon separate slips, and the same are now in the possession of the Insurance Department. It is believed they furnish a complete schedule of all the manufactories in the State, the value of buildings, machinery and average amount of stock on hand. As soon as the more pressing labor,

incident to the publication of the reports is completed, the classification of these statistics will be commenced. This classification will require from one hundred and fifty to two hundred distinct groups or classes. The practical use which the Department proposes to make of these statistics is this : blanks will be prepared and forwarded to the chief engineers of fire departments, and to selectmen or clerks of towns, with the request that they will insert in the same such information as may be readily obtained in relation to fires, which have occurred during the year in manufacturing establishments, in their respective cities and towns, and forward the same to this Department. We shall then have the statistics for one year, giving the number of the various classes of risks ; the number of each class burned during the year ; the causes of the fires, so far as known ; the number burned by fires originating upon the premises ; and the number destroyed by exposures, or fires originating in contiguous property. Such statistics, continued a series of years, would be of great value. There may be some question as to the practicability of attempting to obtain minute details in regard to the various risks, such for instance, as are necessary to an insurance company for the successful prosecution of its business, but the principal facts in relation thereto may be obtained annually, without serious inconvenience to any public officer, and at little expense. If the assessors of cities and towns were required by statute to return to the Insurance Commissioner, annually, in the month of October, upon blanks furnished by him, a schedule of all the manufacturing risks in their several localities, giving the construction of buildings (brick or frame), the power used (steam, water or hand), and values of buildings, machinery and stock, no great burden would be imposed, as these officers could obtain the necessary information with but little extra labor. The facts once obtained, and schedules thereof prepared, the annual changes would be very slight.

A statute to this effect might contain a further provision for the rendering, by the proper authorities, of an annual statement of the fires occurring during the year. In localities where there is a fire department, these facts are always matters of record. Where no such organization exists, the information may be easily obtained. The Commissioner re-

spectfully suggests that this subject is worthy of the most careful consideration by the Legislature, and he unhesitatingly recommends the enactment of a law which shall provide for an annual return of all available facts relating to the manufacturing business of this State in its connection with the business of insurance. There is, apparently, no other way by which these statistics can be obtained. The classifications of the Insurance Companies are limited to *insured property*, whereas the property *not* insured is an important element in determining the cost of insurance. The annihilation of property by fire is a very serious obstacle to the progress both of our State and of the nation, and all practicable measures for reducing this fearful annual loss should be adopted.

In this connection, the Commissioner desires to reiterate what was said in his last Report, in regard to the enactment of—

BUILDING LAWS

Adapted to the requirements of the cities and towns in this State. This subject is of great importance, and will sooner or later be brought to the attention of the legislature, by sufferers from disastrous conflagrations. This has been the rule or custom ever since the settlement of our country. The laws enacted after the first great fire in Boston are not to be found in the state library, the records of the Andros government not having been preserved. They were evidently very stringent. In 1692, the inhabitants of Boston again applied to the general court, and the following law was passed :—

[Act of June 8, 1692.]

AN ACT for Building with Stone or Brick in the Town of Boston, and preventing Fire.

Where as Great desolations and ruins have sundry times happened by fire breaking out in the Town of Boston, principally occasioned by reason of the joyning and nearness of the buildings, being mostly of Timber, and covered with Shingles.

For the better preventing of such accidents for the future, and damage and loss thereby,

Be it ordained and enacted by the Governor, Council and Representatives, convened in General Court or Assembly, And it is enacted by the Authority of the same.

That henceforth no Dwellinghouse, Shop, Warehouse, Barn, Stable, or any other Housing of more than eight feet in length, or breadth, and seven feet in heighth, shall be erected and set up in Boston, but of Stone or Brick, and covered with Slate or Tyle, unless in particular cases where necessity

requires; being so judged and assigned in writing under the hands of the Justice and Selectmen of the said Town, or major part of both; the Governor with the advice and consent of the Council shall see cause to grant licence unto any person to build with Timber, or cover with Shingle. And if any person shall presume to erect, or cause to be erected, any frame or building contrary hereto; upon conviction thereof, before two Justices of Peace (Quorum Unus) such building shall be deemed a common nuisance, and the owner of such frame or building shall enter into a recognizance to demolish the same; and in default of entering into such recognizance, shall be committed to Prison, until he do cause the same to be demolished; or else such building shall be demolished by order of the Quarter Sessions of Peace within the said County, and the charges thereof to be levied by distress, and sale of such offenders goods, by Warrant from the Court of Quarter Sessions.

And *Whereas* several Houses and other Buildings have been erected and set up since the year 1688, contrary to the law made by the General Court of the Massachusetts Colony

It is hereby ordained and enacted by the authority aforesaid—That every Owner of such house and buildings so set up contrary to said law shall cause the same to be covered with Slate or Tile; or otherwise such houses or buildings shall be deemed a common nuisance, and the owner thereof proceeded against accordingly.

Speedily forgetting their bitter experience, the inhabitants ignored the provisions of this law until another fire occurred, when the General Court extended its protection in the enactment of the following:—

[Act of 31st May, 1699.]

AN ACT in Addition to the Act for building with Stone or Brick in the Town of Boston, and preventing Fire.

For as much as notwithstanding the good and wholesome provision made and established by the said Act. Intituled An Act for building with Stone or Brick in the Town of Boston, and preventing Fire. passed in the fourth year of the Reign of his present Majesty, and of the late Queen Mary, his Royal Consort, of happy memory; divers persons the penalty in the said act not regarding, have been so hardy as to erect and build houses. tenements and edifices of timber, contrary to the express prohibition, true intent and meaning of the said Law. And for as much as the demolishing of such houses and buildings (being now finished) and proceeding according to the directions of the said law, would probably be thought over great severity; Yet that such bold and open contempt may not pass wholly unpunished; and to the intent that others may be deterred from doing the like for the future.

Be it enacted by his Excellency the Governor, Council and Representatives in General Court assembled, and by the authority of the same,

That the Court of General Sessions of the Peace within the County of Suffolk, be and is hereby empowered and required to take effectual order for the enquiring after and conventing before them, all persons that have so transgressed as aforesaid, in having presumed to erect, or that have caused to be erected, and set up within the Town of Boston aforesaid, any House Edifice

or Building of Timber ; or of Brick or Stone, and not covered the same with Slate or Tyle, contrary to the afore recited Act, and the true intent and meaning thereof not having had and obtained licence from the Governor and Council, for his or their so doing ; or that have not observed and performed the terms or conditions of such licence ; and upon due conviction of any such offence, to fine every such person and persons, at the discretion of the said court, according to the circumstances aggravating the offence, with respect to the place where such house or building is erected, or otherwise ; not exceeding the sum of fifty pounds, for one offence, which shall excuse them from any penalty of the law, All such fines to be applied towards the raising of a Stock, for setting of the poor on work within the said Town, at the Work-house, for that purpose appointed or to be appointed.

And in as much as it may be of no apparent hazard unto the said Town, and for the ease and benefit of divers inhabitants and proprietors within the same, that in some parts of the said Town of Boston, Timber Buildings should be permitted and allowed to be erected :

Be enacted by the Authority aforesaid, That the Justices of Peace, and the Selectmen of the said Town of Boston, or the major part of each, certifying their approbation thereof, the Governor and Council may grant licence for the setting up of Timber Houses and Buildings : with and under such conditions, limitations and restrictions for the enclosing and covering thereof as they shall think fit, Any law usage or custom to the contrary in anywise notwithstanding.

The legislature being in session at the time of the great fire in 1760, the following very stringent Act was passed :—

[Act of May 28, 1760.]

AN ACT for the better rebuilding that part of the Town of Boston, which was laid waste by the late fire—and for preventing fire in that Town for the future.

Whereas, great desolation hath been lately made by fire in the Town of Boston, which hath been principally occasioned by the narrowness of the streets, and the houses being built with wood, and covered with shingles : . . .

*And be it further enacted :—*That no House or other Building whatsoever of more than seven feet in height shall be erected in Boston, otherwise than of Stone or Brick, and covered with slate or tiles and that no house or other building already erected, of any greater dimensions than as aforesaid shall be hereafter covered a new on the top, any otherwise than with slate or tiles, on penalty of fifty pounds, to be paid by the owner of the same for the use of the poor of the said town, to be recovered by an action brought for the same by the town treasurer—

*And be it further enacted :—*That every dwelling house which shall be built otherwise than by this act is provided, shall be subject to a yearly tax of twenty pounds, and every warehouse, shop, stable or barn, to a yearly tax of ten pounds to be paid into the town treasury by the occupier thereof, for the use of town ; and the Assessors shall accordingly add such sum or sums to the town tax of every such Occupant yearly over and above the sum with which he would otherwise have been taxed, and shall particularly specify the same in the tax-bill :—*Provided always,* That it shall and may be lawful for any person to build of wood any warehouse, shop or work-house upon any wharfs where—in the Opinion of the Selectmen, no solid

foundation can be had without great expence; on condition that the sides of such warehouse, shop or workhouse be covered with plaster or slate, and the roof covered with slate or tiles; anything in this act to the contrary notwithstanding.

And whereas sundry persons have heretofore inconsiderately erected dwelling houses or other building, in a manner contrary to the provisions of an Act made and passed in the fourth year of the Reign of their late Majesties King William and Queen Mary, Intituled An Act for building with Stone or Brick in the town of Boston and preventing Fire—

Be it enacted, That every such person be indemnified and saved harmless from any prosecution for violating the Act aforesaid—*Provided*, That the House or other building so erected by him, shall be covered with slate or with Tiles within ten years from the first day of June, one Thousand Seven Hundred and Sixty.

And thus the history of legislation following great fires might be continued to the present time. Running through all the statutes, even to some of those of our own day and generation, are provisions indicating plainly a state of excitement or alarm not conducive to the best legislation. Admitting the importance of legislation in this direction, is it well to leave it until a time of great excitement, when the judgment may be unduly influenced and the laws made so stringent as to be nugatory?

Most of our cities, and many of our larger towns, have now an ample supply of water, and others are moving in this direction. Constant improvement is being made in the facilities for extinguishing fires, and with a good building law, rigidly enforced, we may reasonably hope that destructive conflagrations will be less frequent.

In this Centennial year, it is interesting to contrast the facilities for extinguishing fires which existed in Colonial times, with those of the present day.

Immediately following the great fire in Boston, in 1653, the following order was adopted by the town: "Ordered—That there be a ladder or ladders to every house within this town, that shall reach to the ridge of the house, which every householder shall provide for his house, . . . that every householder shall provide a pole of about 12 feet long, with a good large swob at the end of it, to reach the roof of his house to quench fire; that the select men shall provide six good and large ladders for the towns use, which shall hang at the outside of the meeting house," etc. The contrast between

a squad of men armed with these "swobs" hurrying to a fire, preceded by a fireward, bearing "a staff of five feet in length, colored red and headed with a bright brass spire of six inches long," and a first-class steam fire-engine belching clouds of smoke as it is rushed along by a pair of powerful horses, is somewhat striking.

SURPLUS RESERVES IN FIRE INSURANCE.

The numerous failures of Insurance Companies, caused by the great fires in Chicago and Boston, seriously alarmed the whole community. Holders of property liable to be destroyed by a great conflagration were especially aroused, and the question, "What can be done to establish the stability of Fire Insurance Companies?" was agitated in all quarters. At the special session of the legislature of this State in 1872, this question took prominence, and the committee to whom the subject was referred, were earnest in their endeavors to solve the problem.

Two facts appeared in their investigations, which governed the subsequent action of the legislature. First, that in great conflagrations the local companies are likely to furnish the lowest percentage of indemnity, from the fact that they usually write larger amounts within a given territory than the other companies. Second, that companies of large capital are most likely to be able to respond to any call that may be made upon them in such cases. The prestige of a large company is such, its business is so valuable, that its stockholders are prompt to restore any impairment of capital. With these facts as their basis of action, the legislature endeavored to provide: first, a limitation of the amount which a company might insure within a given district; and second, for the creation of companies of large capital. The difficulties surrounding the first provision are so great, that the statute enacted cannot be considered a complete remedy for the evil which it is designed to cure. As the boundaries of the several districts must be determined by the amount of the insurance which can be procured, it is found that perfect safety cannot be expected, until the amount of insurance capital in this country shall have increased many times. In the city of Boston, the fire districts are so small that it is

possible, though not probable, that companies which conform strictly to the requirements of the law, may be rendered bankrupt by an extended conflagration.

Although the motives which prompt legislation in regard to a limitation of the risks which insurance companies may assume, are commendable, it is evident that in the present condition of affairs, much must be left to the discretion of the managers of the companies. Considerable reliance seems to be placed in the statutes which limit the amount a company may write upon one risk; but until legislators shall define what is meant by "one risk," or a "single risk," such statutes are somewhat like a law prohibiting a sane man from acting in an insane manner. The idea of the legislature which framed the law of this State relating to this subject, evidently was, that no company ought to expose itself to the liability of losing more than one-tenth of its capital in any one fire; but the law which they enacted fails to accomplish this desirable end.

In regard to the second provision of the law, more favorable comment may be made. In order that the capital dissipated by the fire in Boston might be restored, it was necessary so to legislate, as not only to furnish protection to the insuring public, but also to induce capitalists to engage anew in the insurance business. In recognition of this fact, the general law was so framed as to compel companies, before commencing business, to have double the amount of paid-up capital that had previously been required; and while in the interest of the policy-holders it limited the dividends which stockholders could receive on their investment, it provided for a capitalization of surplus, in the interests both of stockholders and policy-holders; for in this way, stockholders might receive a dividend upon the profits of the business, and policy-holders would be additionally protected by this accumulation of capital. Sufficient time has not elapsed to admit of a fair and full illustration of the operation and effect of this law. And yet, one old company has increased its capital fifty per cent. since the law was enacted. Such, briefly, were the measures adopted in this State to secure the stability of insurance companies.

In the State of New York, legislation in this direction took

form in what is known as the "Safety Fund Law," for a copy of which see Appendix. This law originated with the Hon. O. W. Chapman, late Superintendent of the Insurance Department of New York, and was first brought to public notice in his report for 1873. Since its enactment, three companies—the Continental, Standard and Williamsburg City—have accepted its conditions.

It will be noticed in the statements of these companies that the amount of the Special Reserve Fund is deducted from the gross assets. This course was pursued in the preparation of the Preliminary Report, issued in February, and gave rise to some criticism. While it may be admitted that indirectly it *may be* a protection to policy-holders, yet the fact, that if a great fire should occur in any of our large cities, not one dollar of this fund could be used to indemnify the burned policy-holders, is sufficient justification of the course pursued. In order that no injustice may be done to companies working under this law, the Commissioner invites especial attention to its provisions, and also presents some of the advantages which it is claimed the law affords. That these may be correctly stated, the language of one of the principal advocates of the law is adopted :—

"When at the end of 1872, Superintendent Chapman became the head of the Insurance Department of the State of New York, he found one hundred insurance companies (more than one-fourth of them being of his own State) in the hands of receivers in bankruptcy, in consequence of the fires in Chicago in October, 1871, and in Boston in November, 1872. Their policy-holders, who had become claimants for losses sustained, and who felt the need of prompt payment as never before, were waiting with what patience they could bring into exercise for payment of the amounts they hoped some day to recover from the bankrupt estates. While waiting, they were obliged to witness the wasting away of those estates ; to see some of the assets become utterly worthless, and the remainder subjected to large legal expenses, including receiver's charges, and finally, to see, without being able to prevent, the coming in of new claims upon what was left, for property afterwards burned under outstanding uncanceled policies.

"Holders of the policies of such companies, upon property not burned, were hastily seeking and paying for new and sometimes doubtful insurance, and were waiting the payment by receivers of the amounts due to them from the bankrupt companies for unearned premiums. Some of such policy-holders had sustained losses after the great fires, and before they could obtain other insurance, and sometimes even before they knew of the failures of the companies whose policies they held, and they, too, were waiting, like the earlier losers, in the hope of getting, at some time, some share of the amount they had expected to receive.

"Others of such policy-holders, on account of the difficulty of obtaining new insurance at satisfactory rates, still clung to the insufficient policies they held where they believed them good for one-half to three-quarters of the amount insured, and while themselves inadequately protected, their course served yet further to encumber and embarrass the adjustments with policy-holders who had become claimants for losses already sustained.

"The superintendent recognized that there were serious hindrances to closing promptly the estates of bankrupt companies, on account of their outstanding insurance contracts, which extended from one day to five years from the date of the conflagration. He also knew that the companies were possessed of assets to a material amount, which, though of substantial value to a company in business, became valueless to its creditors as soon as it fell into bankruptcy.

"He found many other companies of his own and of other States seriously weakened by those great fires, and appreciated the great fact that there existed a great and excusable reluctance on the part of their stockholders to make new contributions to their diminished funds.

"He also found a deficiency of insurance capital for the protection of places of considerable size, and discovered that many companies, on account of the consequent demand for insurance, were rashly assuming such excessive amounts of risks, in limited areas, as to make their politics essentially worthless in the event of a conflagration of moderate magnitude.

"He also knew that there was an increasing probability, growing out of the modern construction of buildings, of other great fires occurring in large towns and cities.

"But for these facts, the Safety Fund Law would never have had an existence. They led the superintendent to desire a remedy for such of these evils as were remediable, and hence the introduction of the subject in his first annual report, and of a bill in the Assembly, then in session, which passed that body, but which never reached a vote in the Senate.

"They led him the next year, when he found that not a single bankrupt insurance estate was yet closed, although the Boston fire was a year and a quarter old, and that of Chicago was nearly twice as old, to a more earnest presentation of the measure, in his annual report, and to the introduction of the bill which passed the legislature of that year.

"That law is capable of securing every desirable relief in the case of great fires, so far as the insurance of them is concerned, *excepting one only*, and that is beyond complete remedy if the fire be but sufficiently extended. Property cannot afford to pay premiums great enough to justify the creation of so large an amount of insurance capital as to make it *certain* that when a city burns, losses will be paid in full.

"This will be better understood, when it is stated that the dry goods districts of the city of New York contain combustible property in merchandise and buildings, to a value, at least, three times as great as all of the cash capitals of all the companies of this State and of all the companies represented here from other States and countries. That district covers but a half-mile square. Chicago burned over four square miles, or say sixteen times as great an area.

"This law will, however, give greater security, in proportion to the amount permitted to be insured, than any other insurance law requires, and companies acting under it will give to their policy-holders, and to the community, great advantages. Such companies will, in the event of a large conflagration, pay greater sums to their loss claimants, than they could otherwise pay,

avoiding all shrinkages, legal costs, receivers' charges, impairment by later losses, and all delays in payment.

"They will protect, promptly and amply, policy-holders not involved in the great fire, relieving them from all apprehension as to their insurance, and keeping them from being an encumbrance upon, and a cause of delayed payments to, the burned policy-holders.

"They will secure continued facilities for insurance to the community, however great the fire may be, and their action will tend to the creation, in a safe manner, of an insurance protection more nearly proportioned to the necessities of the commerce of large cities. A general submission to the law would tend to secure greater integrity in annual statements to the insurance departments respecting unearned premiums, outstanding losses, and in other important respects. It would lead to greater conservatism of action in all respects in the conduct of the business of insurance. It would secure to insurance agents the continuance of their hard-won business, though a city should be burned over.

"To the company, for its consent to accept seven per cent. per annum upon its capital and earned money, instead of dividing at least forty per cent. greater dividends, as it could under other laws, it secures its relations to its customers, its agents, and its business, in case of the occurrence of a great conflagration. This value is contingent, but is liable to be very great, fully justifying submission to the restraints of the law, if not making it an imperative duty to do so when the ultimate interests of the stockholders are considered. That such submission will meet with certain recognition and recompense from property-holders, cannot be doubted."

In the opinion of the Commissioner, an important objection to the adoption of this law in this State, is, that it makes the unearned premiums preferred claims. As a statute of New York (the existence of which appears to have been known to but few until some time subsequent to the Chicago fire) declares such preference in case of insolvent Companies, this objection was not raised against the law in that State.

The principal object of insurance, is to afford indemnity to those whose property is destroyed. They are the great sufferers, and it is unjust to secure the unburned policy-holders at their expense. If such had been the law in this State, the amount paid by the receivers of Boston companies to their burned policy-holders would have been diminished more than nine hundred thousand dollars. If the "Safety Fund Law" can be amended so as to provide for the creation of a Re-insurance Fund, similar in character to the Special Reserve Fund, the principal objection to it, in the minds of many, will be removed. As the law now stands, it is likely to prove more popular with owners of detached risks, than

with holders of property which is liable to be destroyed by a great conflagration.

STATISTICAL TABULATIONS.

Following the text will be found the usual statistical tables. Tables numbered from I. to XII. inclusive, are prepared in the same manner as in previous years.

Table XIII. shows the aggregate cost of insurance for the year, in different classes of companies,—apart from the income from their investments,—computed upon the same basis as the table given in detail in the text of the last report.

Table XIV. exhibits in detail the Massachusetts business of the past year. By this tabulation, space is economized, and the statistics therein given are placed in a convenient form for reference and comparison.

In the Appendix will be found the statements of the Mutual Fishing companies, the Safety Fund Law of New York, and the laws relating to insurance enacted by the legislature of 1875.

Respectfully submitted.

STEPHEN H. RHODES,
Insurance Commissioner.

An Act to provide security against extraordinary Conflagrations, and for the creation of Safety Funds by Fire Insurance Companies.

Passed April 16, 1874, three-fifths being present.

The people of the state of New York, represented in senate and assembly, do enact as follows:

SECT. 1. Hereafter it shall be lawful for any fire insurance company, organized under the laws of this state, to create the funds herein provided for, to be known and designated as the guaranty surplus fund and the special reserve fund, and to avail itself of the provisions of this act upon complying with the requirements thereof.

SECT. 2. Any fire insurance company desiring to create such funds shall be, and it is hereby authorized to do so, upon the adoption of a resolution by its board of directors, at a regular meeting thereof, and filing with the superintendent of the insurance department a copy thereof, declaring the desire and intention of such company to create such funds and to do business under the provisions of this act; and as soon after the filing of such copy of the resolution as convenient, the superintendent shall make, or cause to be made, an examination of such company, and he shall make a certificate of the result thereof, which shall particularly set forth the amount of surplus funds held by such company at the date of such examination, which, under the provisions of this act, are to and may be equally divided between and be set apart to constitute said guaranty surplus and special reserve funds, which certificate shall be recorded in the insurance department; and from and after the date of the recording of said certificate, all the policies and renewals of policies issued by said company shall have printed thereon by said company a notice that the same are issued under and in pursuance of this act, referring to the same by its chapter, date and title, and such policies and renewals shall be deemed to have been issued and received subject to the provisions of this act.

SECT. 3. After the date mentioned, in any such resolution so passed and filed, it shall not be lawful for such company to make, declare or pay, in any form, any dividend upon its capital stock exceeding 7 per cent. per annum thereupon, and upon the surplus funds to be formed hereunder, until after its guaranty surplus fund and its special reserve fund shall have together accumulated to an amount equal to its said capital stock; and the entire surplus profits of such company above such annual dividend of 7 per cent. shall be equally divided between and be set apart to constitute the said guaranty surplus fund and the said special reserve fund, which said funds shall be held and used as hereinafter provided, and not otherwise, and any company doing business under this act, which shall declare or pay any dividend contrary to the provisions herein contained, shall be liable to be proceeded against by the attorney-general for its dissolution.

SECT. 4. Said guaranty surplus fund shall be held and invested by such company the same as its capital stock and surplus accumulation, and shall be liable and applicable in the same manner as the capital stock to the payment generally of the losses of such company.

SECT. 5. Said special reserve fund shall be invested according to existing laws relating to investments of capital by fire insurance companies, and

shall be deposited from time to time, as the same shall accumulate and be invested, with the superintendent of the insurance department, who shall permit the company depositing the same to change such deposits by substituting for those withdrawn others of equal amount and value, and to collect and receive the interests or dividends upon such securities as the same may accrue; and such special reserve fund shall be deemed a fund contributed by the stockholders to protect such company and its policyholders other than claimants for losses already existing, or then incurred, in case of such extraordinary conflagration or conflagrations as hereinafter mentioned; and said fund shall not be regarded as any part or portion of the assets in possession of said company, so as to be or render the same liable for any claim or claims for loss by fire or otherwise, except as herein provided.

SECT. 6. In estimating the profit of any such company for the purpose of making a division thereof between said guaranty surplus fund and such special reserve fund, there shall be deducted from the gross assets of the company, including for this purpose the amount of the special reserve fund, the sum of the following items: First, the amount of all outstanding claims; second, an amount sufficient to meet the liability of such company for the unearned premiums upon its unexpired policies, which amount shall be at least equal to one-half of the premiums received on policies having less than one year to run from date of policy, and a *pro rata* proportion of the premiums received on the policies having more than one year to run from date of policy, and shall be known as the re-insurance liability; third, the amount of its guaranty surplus fund and of its special reserve fund; fourth, the amount of the capital of the company; and fifth, interest at the rate of seven per cent. per annum upon the amount of the capital and of the said funds for whatever time shall have elapsed since the last preceding cash dividend; and the balance shall constitute the net surplus of the company subject to an equal division between the said funds as herein provided.

SECT. 7. In the event of any extensive conflagration, or conflagrations, whereby the claims upon such company shall exceed the amount of its capital stock and of the guaranty surplus fund provided for by this act, the said company shall notify the said superintendent of the fact, who shall then make, or cause to be made, an examination of said company, and shall issue his certificate of the result, showing the amounts of capital, of guaranty surplus fund, of special reserve fund, of re-insurance liability, and of other assets, and upon his issuing such certificate in duplicate, one copy to be given the company and one to be recorded in the insurance department, the said special reserve fund shall be immediately held to protect all policyholders of said company other than such as are claimants upon it at the time, or such as became such claimants in consequence of such conflagration, or conflagrations; and the amount of said special reserve fund and an amount equal to the unearned premiums of such company, to be ascertained as herein before provided, shall constitute the capital and assets of such company for the protection of policyholders other than such claimants, and for the further conduct of its business; and such official certificate of the superintendent shall be binding and conclusive upon all parties interested in such company, whether as stockholders, creditors or policyholders, and upon the payment to the claimants, for losses or otherwise, existing at the time of, or caused by, such general conflagration, or conflagrations, of the amount to which they are respectively entitled, in proportion to their

fund and an amount of its assets equal to the liability of the company for unearned premiums as so certified by such superintendent, such company shall be forever discharged from any and all further liability to such claimants, and to each of them; and the said superintendent shall, after issuing his said certificate, upon the demand of such company, transfer to it all such securities as shall have been deposited with him by such company as such special reserve fund; and if the amount of such special reserve fund be less than fifty per cent. of the full amount of the capital of the company, a requisition shall be issued by the said superintendent upon the stockholders to make up such capital to that proportion of its full amount, in the manner now provided by law in the case of companies with impaired capitals; and *provided, further*, that any capital so impaired shall be made up to at least the sum of \$200,000; and in case said company, after such requisition, shall fail to make up its capital to at least said amount of \$200,000 as therein directed, said special reserve fund shall still be held as security, and liable for any and all losses occurring upon policies of such company after such conflagration or conflagrations. Such company shall, in its annual statement to the insurance department of this State, set forth the amount of such special reserve fund and of its guaranty surplus fund.

SECT. 8. If at any time after said special reserve fund shall have been accumulated by any company, it shall appear, upon examination by the said superintendent, that the capital of such company has, in the absence of any such extensive conflagration, become impaired so as to cause him to order a call upon the stockholders to make up such impairment, the board of directors of such company may either comply with such order and require the necessary payment by the stockholders, or at their option, they may apply for that purpose so much of said special reserve fund as will make such impairment good. No company doing business under this act shall insure any larger amount upon any single risk than is permitted by law to a company possessing the same amount of capital irrespective of the funds hereby provided for.

SECT. 9. This act shall take effect immediately.

INSURANCE LAWS OF 1875.

[Chap. 27.]

AN ACT in relation to the Increase and Reduction of the Capitals of Joint-Stock Insurance Companies.

Be it enacted, &c., as follows :

SECT. 1. Whenever the capital stock of any fire, marine or fire-marine insurance company, organized or incorporated pursuant to law, is impaired, such company may reduce its capital stock and the number of shares thereof to such an amount as truly represents the assets and property of such company: *provided*, that no part of its assets and property shall be distributed to the stockholders of said company, and that said capital stock shall not be reduced below the minimum sum required by the laws of this Commonwealth.

SECT. 2. No reduction of the capital of any such company shall be made, except upon a vote of a majority of the stockholders of said company had at a meeting duly and legally called for that purpose: and within ten days after said meeting a certificate, setting forth the proceedings of said meeting and the amount of the reduction of the capital stock of said company, shall be signed and sworn to by the president, secretary and a majority of the directors of said company and presented to the insurance commissioner, who shall examine the facts in the case, and if the same conform to law, shall indorse his approval thereof: and such certificate, so approved, shall be filed with the secretary of the Commonwealth.

SECT. 3. Upon filing the certificate provided in the second section of this act, such company shall with such reduced capital possess the same rights and be subject to the same liabilities that it possessed or was subject to at time of the reduction of its capital; and the charter of such company shall be deemed to be amended so as to conform to such reduction; and the insurance commissioner shall issue his certificate to that effect.

SECT. 4. Such company may, by a majority vote of its directors, after said reduction of capital shall have been made as aforesaid, require the return of the original certificates of stock held by each stockholder, and in lieu thereof issue new certificates for such number of shares as the said stockholders shall be entitled to, in the proportion that the reduced capital may be found to bear to the original capital of said company.

SECT. 5. It shall be lawful for any joint-stock fire, marine or fire-marine insurance company, incorporated under any special laws of this Commonwealth, to increase its capital stock as provided in section thirteen, chapter three hundred and seventy-five of the acts of the year eighteen hundred and seventy-two.

SECT. 6. Section seven, chapter two hundred and forty-nine of the acts of the year eighteen hundred and sixty-three is hereby amended by striking out the word "shall" and inserting in lieu thereof the word "may," and

with loss, or decreased in accordance with the laws of this Commonwealth."

SECT. 7. This act shall take effect upon its passage. [*Approved February 20, 1875.*]

[Chap. 34.]

AN ACT to extend the Charters of Certain Insurance Companies.

Be it enacted, &c., as follows :

SECT. 1. Insurance companies created by the laws of this Commonwealth, whose charters were granted or have been extended for a term of years or subject to a limitation of time, shall continue to be bodies corporate, for the purposes specified in their several acts of incorporation and in any acts in addition to or in amendment thereof, from and after the expiration of their respective charters, with the powers and privileges, and subject to the duties, liabilities and restrictions set forth in the general laws which are or may be in force and applicable to such insurance companies.

SECT. 2. This act shall take effect upon its passage. [*Approved March 4, 1875.*]

[Chap. 42.]

AN ACT in relation to Mutual Fire Insurance Companies created by the Laws of other States.

Be it enacted, &c., as follows :

SECT. 1. Mutual fire insurance companies, incorporated by or under the law of any state of the United States, other than the Commonwealth of Massachusetts, and by such law authorized to issue policies of insurance upon both the cash and mutual plans, are and shall be authorized to issue policies of insurance in this Commonwealth either for premiums payable wholly in cash or for premiums payable partly in cash and partly by premium notes : *provided*, that no such company shall be permitted to transact business in this Commonwealth, until it shall have satisfied the insurance commissioner that it is possessed of a re-insurance fund, over and above all liabilities, equal to fifty per centum of all cash premiums on cash policies in force, and that it has premium notes liable to assessment amounting to the sum of at least two millions of dollars, which notes may, by law, be or become a lien upon the property insured and liable to assessment for the payment of losses and expenses for their full amount, and shall keep a cash deposit in this Commonwealth of not less than two hundred thousand dollars for the security of policy-holders ; and *provided, further*, that no such mutual fire insurance company shall insure in any fire insurance district in the Commonwealth of Massachusetts to an amount exceeding said cash deposits and its net cash assets.

SECT. 2. All acts and parts of acts inconsistent herewith are hereby repealed.

SECT. 3. This act shall take effect upon its passage. [*Approved March 9, 1875.*]

[Chap. 59.]

AN ACT to define the Location of Risks to be taken by Mutual Fire Insurance Companies.

Be it enacted, &c., as follows :

SECT. 1. Mutual fire insurance companies created under the laws of this state may issue policies on any property included in the terms of their

charter, situated in the New England states, New York, Pennsylvania and New Jersey.

SECT. 2. Section fifty-seven of chapter fifty-eight of the General Statutes is hereby repealed. [*Approved March 20, 1875.*]

[Chap. 72.]

AN ACT to authorize certain Companies to insure against loss by Fire or Lightning without limitation of time.

Be it enacted, &c., as follows :

SECT. 1. Joint-stock insurance companies and mutual insurance companies with a guarantee capital incorporated or organized under the laws of this Commonwealth, are hereby authorized to issue policies of insurance which shall not limit or restrict the term of the risk, against loss or damage by fire or lightning, on buildings occupied solely for dwelling-house purposes, together with the out-buildings and private stables usually belonging thereto, and on buildings used exclusively for religious, charitable, and educational purposes: *provided*, that no such policy shall be issued until the insured has made a deposit in cash with said companies, the annual interest of which shall be not less than an adequate yearly rate of premium on the risk incurred; and *provided, further*, that no part of said deposit shall be returned to the insured while such risk continues in force.

SECT. 2. All sums deposited with any insurance company, for the purpose of insurance under the provisions of this act, shall be set apart and invested, and shall constitute a distinct fund, the income from which shall become a part of the general funds of the company; but no part of such distinct fund shall be used except as in manner hereinafter provided, nor shall the same be advertised in any publications of the company, in any other manner than as deposits upon perpetual policies.

SECT. 3. Whenever a policy of insurance issued under the provisions of this act is terminated at the request of the company, the full amount of the deposit upon the same shall be paid to the insured from said distinct fund; and whenever a policy so issued is terminated at the request of the insured, or in consequence of loss under the same, ninety per cent. of the deposit shall be paid to the insured from the distinct fund, and the balance thereof shall be drawn from said fund, and be entered in and become a part of the general funds of the company. In the event of the insolvency of the company, the deposits made for insurance under the provisions of this act shall be returned to the insured under the same.

SECT. 4. The provisions of the third section of this act shall be expressed in full in any policy issued under this act, before the signatures of the officers signing the same.

SECT. 5. This act shall take effect upon its passage. [*Approved March 29, 1875.*]

[Chap. 79.]

AN ACT in relation to the Approval of the bonds of Insurance Agents.

Be it enacted, &c., as follows :

SECT. 1. The bonds which by section sixty-nine of chapter fifty-eight of the General Statutes and by section eleven of chapter one hundred and forty-one of the acts of the year eighteen hundred and seventy-three are required to be approved by the treasurer and receiver-general of the Commonwealth shall hereafter be approved by the insurance commissioner. It shall be the

statement of that fact upon the bond and to forthwith transfer the same to the treasurer of the Commonwealth.

SECT. 2. This act shall take effect upon its passage. [*Approved March 31, 1875.*]

[Chap. 95.]

AN ACT to amend Section one of Chapter two hundred and twenty-two of the Acts of the year eighteen hundred and seventy-four, relating to Dividends of Joint-Stock Fire and Marine Insurance Companies.

Be it enacted, &c., as follows :

SECT. 1. Section one of chapter two hundred and twenty-two of the acts of the year eighteen hundred and seventy-four is amended by striking out in the fifth line the words "in any one," and inserting in their place "a," and after the word "stock" in the sixth line, by inserting "and if any dividends are less than ten per cent. in any one year after the passage of this act, the same may be made up when the net profits and income become sufficient therefor."

SECT. 2. This act shall take effect upon its passage. [*Approved April 3, 1875.*]
